CAREER OBJECTIVE

Final year student with a strong foundation in FullStack Development, seeking a challenging opportunity to leverage my problem-solving skills and passion for programming in a collaborative environment. Proficient in Agile methodologies and eager to learn new technologies to deliver efficient and scalable software solutions.

PROFESSIONAL PROJECTS

FullStack Developer

VLaser Optical Technology

09.2023 – 07.2024

Researching and developing a web application for the smart card system (Company Project):

- User authentication and access control for different roles (e.g., admin, staff, users).
- Smart card registration, activation, and deactivation management.
- Real-time tracking and monitoring of smart card usage.
- Secure data storage and retrieval for cardholder information.
- Admin dashboard for managing user accounts and system logs.

Achievements:

- Successfully completed assigned development tasks and contributed to key system modules.
- Gained hands-on experience with modern web technologies and system integration.
- Delivered the project on time, meeting functional requirements and performance expectations.

Technologies:

HTM

CSS

ReactJs

TypeScript

NodeJs

Express

MySQL

EDUCATION

FPT Software Academy

02.2025 – Present

Fresher Fullstack Developer

La Trobe University – Hanoi University of Science and Technology (Joint Program)

10.2020 – Present

Information Technology, GPA: 2.91/4

CERTIFICATE & AWARD

VSTEP 7.0

SKILLS

Frontend:

- ReactJS
- JavaScript/TypeScript
- HTML/CSS
- Tailwind

Backend:

- NodeJS/Express

Fronend Intern

FPT Software (GST.G8)

03.2024 – 8.2024

Developing a software project (Company Project):

- Developed frontend components for software projects within the company unit.
- Ensured optimal performance and seamless user experience.

Achievements:

- Successfully completed assigned tasks.
- Learned new skills and technologies.
- Delivered high-quality frontend solutions.
- Gained a deeper understanding of company culture.

Technologies:

HTM

CSS

Front-end

TypeScript

Angular

- MySQL, MongoDB
- RESTful API
- Authentication and authorization
- Database (MySQL, MongoDB, SQL Server)

Tools:

- VS code
- IntelliJ IDEA

Version Control:

- Git (Git Hub, Git Lab)

Other:

- Java/SpringBoot
- Angular
- C#/.NET

SOFT SKILLS

- Good communication
- Good team player
- High responsibility in work

LANGUAGE

English – VSTEP 7.0

INTEREST

Swimming and running

Playing Game

FullStack Developer

Job Recruitment Website

10.2024 – 12.2024

Job Recruitment Website (Class Project):

- User registration and authentication with role-based access for students, admins, and companies.
- Real-time job search with dynamic filtering by title, type, and company.
- Application submission system where students can upload resumes and track application status.
- Admin dashboard for managing users, job posts, and reported content.
- Company interface to create, update, and track job and internship listings.

Achievements:

- Successfully deployed a full-stack web application using Firebase Hosting and Firestore.
- Implemented secure role-based access control to separate functionalities between users, companies, and admins.
- Integrated real-time job search with advanced filtering capabilities for better user experience.

Technologies:

HTM

CSS

TypeScript

ReactJS

Firebase

GitHub

FullStack Developer

09.2024 – 01.2025

Hanoi University of
Science and Technology

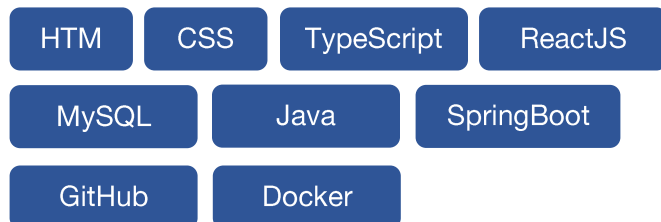

Management Website (Group Project):

- Co-designed and developed with team.
- Implemented user authentication, role-based authorization, and email verification.
- Enabled comprehensive management of resources across departments, units, and individual users.
- Built a structured workflow for users and units to submit, track, and approve resource requests.

Achievements:

- Designed a clear resource approval workflow across user roles.
- Handled user notifications via email upon approval/rejection.
- Collaborated in a group to implement full admin-level control and auditing.
- Actively participated in collaborative planning, coding, and review sessions to ensure consistent development practices.
- Fostered effective communication within the team to align development goals and resolve issues quickly.
- Shared knowledge and supported teammates in resolving technical challenges, improving overall team productivity
